Scope Summary

The Jefferson Parish Sheriff's Office (JPSO) is seeking a vendor to facilitate the purchase of a Brinc Safeguard Lemur 2 UAV Twin Pack with subscription service or equal.

General Specifications

Offerors shall be capable of meeting or exceeding all specifications and are compelled to fulfill other requirements contained herein before any proposal will be considered. The successful offeror will have verifiable substantial experience before any proposal will be considered. The successful offeror will have verifiable experience with law enforcement employing similar systems in complexity to that specified in this solicitation.

It is desirable that the successful offeror be approved by the respective manufacturer(s) for the sale of all specified components associated with the equipment, accessories and optional items, and any other devices furnished to satisfy the requirements of this document.

It is preferred that the successful offeror be registered with, and in good standing with Sams.Gov. For evaluation purposes, Offeror should submit certifications, documentation and information that affirms compliance to this section with their offer.

In the event that any or all of the above certifications, documentation and/or information are not submitted with the offer, JPSO Purchasing, at its sole discretion may request the information from the offeror. If requested, the offeror shall provide the information. Failure to provide the requested information or failure to adequately address any issue cited herein may result in the offer being found non-responsive and not considered for award.

Each installed component or item of equipment shall be state of the art technology. Where brand names are specified, alternates will not be accepted unless otherwise specified.

Each item made a part of an offer not specified by brand name in this document shall be identified by manufacturer name, model number and other information necessary to determine compliance with these specifications. Descriptive literature shall also be provided when available. Literature shall be sufficient in detail to allow full and fair evaluation of the offer submitted.

All equipment, components and accessories shall be in accordance with the specifications listed herein.

Each item shall be completely functional at the time of delivery. In addition, all equipment, components and accessories provided by the offeror must be "factory new."

Scope of Work

Each installed piece of equipment / system, subsystem, or components of the Brinc Lemur 2 Drone Twin Pack must be compatible, when operational, with all other Brinc systems and components employed by the JPSO.

All necessary attachments, and add-ons, must be clearly identified and constructed in order to deny improper connection and/or attachment.

27. Onsite Training on new Hardware
28. 2x Lemur 2 Streaming and Data Package - L2 Data
29. Brinc Support Program

or Equal

Performance Requirements

Delivery, Performance Evaluation and Acceptance:

Inspection and Acceptance: Once all equipment, components and accessories listed herein are delivered and received by the JPSO Strategic Engagement Team (S.E.T.), the vendor / offeror will coordinate with the JPSO (S.E.T.) point of contact for a date and time where an inspection can be completed, a performance evaluation on the system can be conducted, and the equipment / system can be tested for functionality. If defects, malfunctions, or breakages are discovered during the inspection or functionality check, those defects shall be remedied by the Offeror / Vendor at no extra cost to the JPSO.

Return visits may be necessary to complete the acts of delivery and initial performance evaluation. All cost associated with any activity necessary to consummate either delivery or Initial Performance Evaluation during return visits shall be borne entirely by the successful Offeror / Vendor.

For the purpose of these specifications and any contract awarded for the procurement of the Brinc Lemur 2 Drone Twin Pack; **Acceptance** is defined as the signature of the designated JPSO (S.E.T.) member in attendance during the delivery and Performance Evaluation upon a document supplied by the successful Offeror (vendor) for the purpose of granting ownership of all equipment, systems, components, and accessories necessary to satisfy these specifications, the Request for Proposal (RFP) and product acceptance by the Jefferson Parish Sheriff's Office.

Delivery

The offeror, upon submitting a bid for the Brinc Lemur 2 Drone Twin Pack, shall provide a delivery date, stating a "No Later than" calendar date on which all systems and equipment outlined in this document will be provided.

If the offeror cannot provide a delivery date that is within a reasonable time frame for the JPSO, the award to the offeror will not be granted.

Late Delivery: For each day late to the agreed to acceptance and delivery date on award of contract, there will be a \$500 per day penalty imposed. Offeror understands and agrees that the delivery deadline is critical to the JPSO Strategic Engagement Team operations. In the event the offeror fails to meet the agreed upon delivery schedule, JPSO may, at its sole discretion, deduct an amount of \$500.00 per calendar day from the vendor's most current invoice, for the offerors failure to meet the delivery schedule as described. Any delay created by JPSO's failure to provide personnel for inspection, acceptance, and/or performance review shall not be counted against the above described delivery date. JPSO reserves the right to waive any formality in the delivery schedule requirements.

Guarantees and Warranties

Guarantees and warranties shall be assembled by the vendor and made a part of the offer.

Prior to the purchase of the Brinc Lemur 2 Drone Twin Pack, the Vendor shall secure all Equipment warranty documentation on behalf of JPSO.

As originating purchaser, Vendor is solely responsible for registering each and every purchased piece of equipment, component and accessory on behalf of the JPSO with the OEM. Vendor is solely responsible for exercising its rights under such warranty as purchaser, including but not limited to any return merchandise authorizations, and to secure OEM corrections to any and all delivery defects of newly delivered equipment prior to JPSO acceptance.

Upon JPSO acceptance of the Brinc Lemur 2 Drone Twin Pack, the Vendor shall materially transfer all warranty documentation to JPSO, and secure documentation from the OEM verifying said transfer.
